

EXHIBIT E

This document contains financial interests of the 10 individuals whose waivers and recusal lists are sought by plaintiff. All the interests were found using data that is in the public domain.

The contents are as follows:

pp. 2-4: Financial interests as listed in the *ProPublica* Dollars for Docs database or in the disclosure sections of peer-reviewed journals.

pp. 5-6: A summary table of all those financial interests, including total dollar values paid by entities in the Dollars for Docs database. Even though plaintiff was unable to find dollar amounts for the vast majority of the financial interests in the table, the amounts he did find still add up to more than \$360,000 for those 10 individuals.

pp. 7-10: Patents and patent applications which list any of the 10 individuals as inventors.

p. 11: Summary table listing the number of patents and patent applications associated with those 10 individuals.
